

Simply Theatre Signs Software

STS

Our Simply Theatre Signs (STS) software automatically manages and displays important theatre information on ALPHA LED displays. STS interfaces directly with your POS - or it can operate entirely on its own with no input from the point of sale system. Either way, your network of Adaptive displays are automatically updated throughout the business day.

No matter how you want your information displayed - STS delivers. Automatically, throughout the business day.

BOX OFFICE

Newspaper display

STS's newspaper like listing allows multiple auditoriums with the same title to simply merge their show times chronologically

BOX OFFICE

Newspaper display with drop duplicate titles and drop duplicate ratings

A different twist to our Newspaper Display order, STS allows you to automatically drop the duplicate titles and/or film ratings from the display.

BOX OFFICE

Alphabetical by auditorium

List all features by auditorium - showing title, rating and show times
