Keep everyone informed at all times by showing the most important information on the Alpha 4000 RGB displays. Show messages, productivity statistics, safety and accessibility information to customers, visitors and employees on the Alpha 4000 RGB displays. This improves employee motivation and increases customer satisfaction. Boost your sales figures and increase safety in the workplace.

The Alpha 4000 RGB LED displays are built according to the latest technological developments. They are indoor LED displays that can show crystal-clear text and graphics in all colors on 1 or 2 lines. The "Automode" and "Autocolor" software functions make it easy for anyone to quickly create visually attractive, high-impact messages!

You can create your own graphics and gif animations. Handy automatic functions in the software are: the day of the week, the date, the clock, an adjustable countdown and count-up clock.
